About Me

A quick learning full-stack web developer from Sarnia, Ontario. I am passionate about all things technology and would like to use my skills to benefit those around me and the rest of the world!

Professional Experience

Web Developer | Freelance | Sarnia, ON
May 2021 – Present
- Met with prospective clients, both in-person and online, to gather specifications for new and existing websites
- Designed and built websites for multiple local and non-local businesses using HTML, CSS, JavaScript and React
- Proficiently managed and sustained websites on diverse hosting platforms, including AWS, Netlify, and Awardspace

Customer Support | TekSavvy | Sarnia, ON
November 2022 – Present
- Helped customers around Canada troubleshoot and fix their home network issues through telephone and remote desktop software
- Assisted customers in finding the optimal internet service, VOIP phone, and IPTV package for their specific needs and requirements
- Beta tested sales software and provided feedback in order to help make selling internet bundles more efficient for fellow agents

Web Designer | Lockie Learning | Moncton, NB
May 2022 – August 2022 (Co-op)
- Used WordPress and the Divi Builder plug-in to design websites for both Lockie Learning and the Shediac branch of the Canadian Power and Sail Squadron
- Engaged in daily virtual stand-up meetings to provide progress updates on prior day's accomplishments
